

# Environment Design and Evaluation

## Reconstruction

### Observed Views

### Scene Reconstruction

**Articulation**
Drawer state and movable parts

**Geometry**
Table layout and drawer structure

**Object State**
Identity, pose, and placement

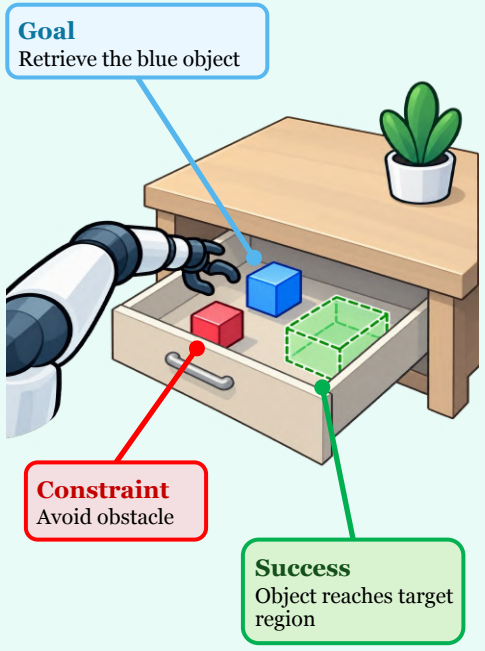

**Camera Alignment**
Viewpoint and observation geometry

### Executable Scene

## Task Generation

### Example Task Specification

### Task Variants

**Different Target**

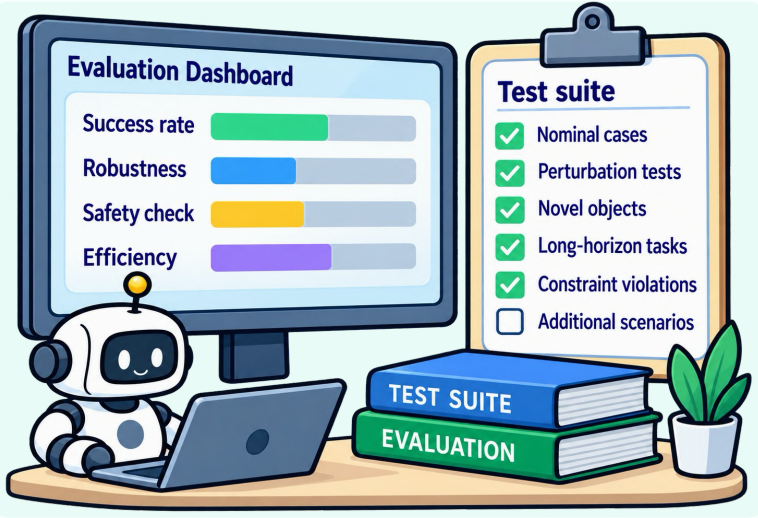

**Different Obstacle**

**Different Target Region**

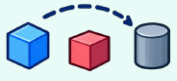

## Benchmarking

### Evaluation protocol

Specify test conditions and measurement procedures

**Test conditions**

**Reset protocol**

**Metrics and evaluator**
